Any deviation from the correct negotiation shall negate the dog from achieving a qualifying certificate.

7.2 Course Time

The maximum allowed time for all courses will be 2 minutes at all grades.

7.2.1 Electronic timing gate systems, and manual stopwatch timing are both acceptable methods of timing runs.

A dog that earns a disqualification is eliminated from competition in that class.

B. Action by Show Manager

The responsibility to investigate and recommend further option for any allegations of harsh handling arising when a dog is not being judged lies with the Show Manager.

7.5.3 Mandatory Disqualification

7.5.3.1 Dogs disqualified under this section may continue to complete the course (unless the Show Manager has indicated that the show is not allowing this).

Mandatory disqualification will occur when a dog:

- runs out of the ring out of control of the handler.
- commences its run from outside the marked ring area.

7.5.3.2 The following mandatory disqualifications will also result in the dog and handler not being permitted to continue and they must leave the ring immediately.

- outside interference during a run includes "double handling" but does not include cheering during a round.
- taking more than the maximum course time.
- fouling (vomiting, urinating or defecating) in the ring.
- if the dog starts the course wearing a check chain or any collar other than that allowed under these regulations.

7.6 Obstacle Performance Standards

Below is a description of how each obstacle should be performed.

7.6.1 Hoop

Reasons for Non-Qualification

- Running past the hoop without passing underneath.
- Dislodging the hoop in such a way that affects the course.

7.6.2 Barrel

The dog must go around the barrel in the direction specified by the judge.

Reasons for Non-Qualification

- Entering the touch-and-go mat from the side.
- Going past the line parallel to the start of the obstacle with no attempt to enter the touch-and-go mat box.
- Exiting the touch-and-go mat box on the incorrect side.
- Entering the touch-and-go mat box from the exit side.
- Not touching the mat with at least one paw.

7.6.5 Gate

The dog must run past the gate on the opposite side to the handler.

Reasons for Non-Qualification

- Running on the inside of the gate.

7.7 Course Design Considerations

All courses must be flowing with no tight turns or changes of direction, unless around a barrel.
Hoops and tunnels can only be taken from the front, no backsides.
No sharp exits out of tunnels.

7.8 Stopping A Round

A judge may stop a dog and handler during their round if some unforeseen circumstance places either at risk, e.g., another dog loose in the work area, a dog or handler apparently injured, or an obstacle blown over.

7.9 Re-runs

7.9.1 Re-runs permitted in some circumstances.

Competitors will be allowed re-runs at the judge's discretion under the following conditions.

- (i) Failure of any obstacle.
- (ii) Outside interference.
- (iv) Any other unforeseen circumstance which in the opinion of the judge has unfairly disadvantaged the chances of the dog continuing unimpeded and/or safely.

7.9.4 Refusing a re-run.

Should a competitor refuse the re-run, the run shall be noted as eliminated.

7.10 Practice

No practice is to be allowed on the course prior to judging. If the host club allows practice in the ring after the completion of the class, no food may be carried into the ring during the practice time or at any other time until the completion of the event.
